PROFESSIONAL SUMMARY

Seasoned Staff Software Engineer with 10+ years of experience in software development, team leadership, and strategic project execution. Expertise in driving high-impact projects, ensuring timely delivery, and implementing scalable, high-quality solutions. Strong background in architecture design, process optimization, and cross-functional collaboration. Proficient in integrating AI agents into day-to-day delivery workflows, resulting in a 10x improvement in overall delivery efficiency.

CORE SKILLS

- Programming: Node.js, TypeScript, React, Angular, Vue, Express.js
- Databases: MySQL, MongoDB, PostgreSQL, Redis
- Architecture and Infrastructure: Microservices, REST APIs, Kubernetes, Kafka, AWS, GCP, Azure, Digital Ocean
- Methodologies: Agile and Waterfall, System Design, Tech Strategy
- CI/CD Tools: GitHub Actions, Jenkins
- Mobile Development: React Native, Ionic

PROFESSIONAL EXPERIENCE

Staff Software Engineer | Apply Digital, Noida | Sep 2025 – Present

- Led and managed a cross-functional team of 24 engineers spanning Frontend, Backend, and DevOps disciplines.
- Served as the primary delivery owner for Kraft Heinz, overseeing feature development, security integrity, and strategic work allocation across the engineering team.
- Architected and implemented an AI-driven delivery pipeline that autonomously spawns specialized agents — Product Manager, Project Manager, QA, Architect, and Developer — from a single human-provided spec, drastically reducing time-to-delivery.

Senior Software Engineer | Google (Fluxon), Remote | Oct 2024 – Sep 2025

- Delivered features across Google's internal projects including REWS SPH, Campus Planning, and Kioskly.
- Executed full software development lifecycle adhering to Google's engineering standards, tools, and best practices.
- Collaborated with cross-functional teams to design and ship scalable, maintainable solutions.

Senior Technical Manager | Collance Technologies, Noida | Apr 2023 – Sep 2024

- Led a team of 15+ developers to successfully deliver two enterprise-grade projects on time.
- Maintained continuous client communication and actively contributed to the development of major modules.
- Conducted regular code reviews and designed high-level system architecture diagrams.

Solution Architect | Eunimart Omnichannel, Hyderabad | Sep 2021 – Apr 2023

- Provided technical guidance and led end-to-end solution design for complex distributed systems.
- Diagnosed and resolved critical software and infrastructure issues to ensure system reliability.
- Drove quality assurance standards across multiple simultaneous product initiatives.

Technical Architect | Crisp Analytics, Noida | Feb 2020 – Sep 2021

- Designed and managed system architectures and wireframes for enterprise-scale solutions.
- Built and delivered insurance products for major banking clients including Canara Bank and HSBC OBC.
- Coordinated cross-departmental system integration efforts, improving delivery alignment.

Technical Lead | Finvest FX, Delhi | Nov 2018 – Feb 2020

- Spearheaded development of a risk management system for foreign exchange trading operations.
- Designed and implemented CI/CD pipelines and deployment strategies to streamline releases.

- Resolved scalability and security vulnerabilities through targeted architectural improvements.

Senior Software Engineer | Rev InfoTech, Gurgaon | Jun 2016 – Nov 2018

- Deployed multiple production projects using Angular, Vue, and Node.js on Kubernetes infrastructure.
- Improved system performance through proactive capacity planning and scaling strategies.
- Rapidly resolved production incidents to maintain high availability and service continuity.

EDUCATION

B.Tech in Computer Science and Engineering | Amity University, Noida | 2012 – 2016
